tristis*

14cm

*Heterometrus
spinifer*

15cm

*Pandinus
imperator*

16cm

*Gigantometrus
swammerdami*

20cm

*Hadogenes
troglodytes*

Note: The scorpion sizes shown in this chart represent **average measurements**. Individual scorpions may be slightly larger or smaller depending on factors such as diet, habitat, and lineage. These figures do not include rare, exceptional cases (e.g., record-holders). Additionally, size can vary within the same species based on **gender**.
